

THE CLIMATE REGISTRY

Credible Carbon Reporting

Become a Member of The Climate Registry

Are you looking to reduce your greenhouse gas emissions and achieve your climate goals? Become a member of The Climate Registry and kick start your climate action journey today!

The Climate Registry’s mission is to connect, educate, and empower organizations with the resources to reduce greenhouse gas emissions in order to mitigate climate change. A trusted nonprofit founded in 2007, The Climate Registry (TCR) provides our members with credible carbon reporting tools, services, and initiatives that support companies, governments, and institutions on the road to net zero.

TCR operates a leading, voluntary greenhouse gas (GHG) reporting program in North America through our online [Carbon Footprint Registry](#)—aligned with the [GHG Protocol, ISO 14064-1:2018](#), and the [US EPA Corporate Leadership GHG Inventory Guidance](#)—available exclusively to members. We also provide our members with other extensive resources including technical support, education and training, networking, and capacity building.

Identify reduction opportunities	MEMBERSHIP AND REPORTING BENEFITS	Increase efficiency
Demonstrate leadership and accountability		Build stakeholder and investor trust
Save on fuel and energy costs		Benchmark sustainability performance
Inform decisions and programs		Prepare for future regulations

As a nonprofit, we offer these benefits at an amazing value! Please read on for the full list of membership benefits and fees.

If you would like to join The Climate Registry or receive more information, please contact a representative from our [Registry Services Team](#), below, or reach out at (866) 523-0764 or info@theclimateregistry.org.
