

THE CLIMATE REGISTRY

Credible Carbon Reporting

Join the Climate Registry

Make an impact with us today

The Climate Registry (TCR) is a non-profit organization that empowers organizations to act on climate change by providing services and tools to help them reduce their emissions.

TCR offers credible, rigorous and cost-effective carbon reporting and verification solutions aimed at any organization in North America looking to measure, track and ultimately reduce their greenhouse gas (GHG) emissions. We provide our members with credible carbon reporting tools, services, and initiatives that support companies, governments, and institutions on the road to net zero.

TCR operates a leading, voluntary greenhouse gas (GHG) reporting program in North America through our online **Carbon Footprint Registry**—aligned with the GHG Protocol, ISO 14064-1:2018, and the US EPA Corporate Leadership GHG Inventory Guidance—available exclusively to members.

Membership Benefits and Pricing Structure

As a nonprofit, The Climate Registry offers **Essential**, **Advanced**, and **Premium** membership levels at an affordable value. Please contact us for additional services and pricing guidelines.

Essential

Organizations who would like to gain an overview understanding of what comprises their organization's greenhouse gas emissions.

Includes:

- Full access to CRIS with limited users (2 users)
- Dashboard visualization of an overview of GHG emissions
- Help Desk support throughout reporting and verification process (4 hrs)
- GHG Reduction Goal to be included on public report
- Access to Members Only platform (webinar library, Knowledge base, new, and events)
- Participate in forum discussions
- Climate Registered™ Recognition program
- Climate Leader Network
- Priority invites to special events
- Discounted admission to Climate Leadership Conference (15%)

Advanced

Organizations that have strong greenhouse gas emissions reduction goals or goals of achieving carbon reduction and would like to understand the emissions that have been reported.

Includes:

- All the benefits of Essential plus
- Full access to CRIS with limited users (4 users)
- Enhanced dashboard visualization GHG emissions overview and ability to dive into the data, and map of facilities and largest emitters
- Help Desk support throughout reporting and verification (8 hrs)
- GHG Reduction Goal to be included on public report
- Access to Members Only platform (webinar library, Knowledge base, new, and events)
- Create and participate in forum discussions
- Discounted admission to Climate Leadership Conference (20%)

Premium

Organizations that have aggressive carbon reduction goals such as net-zero goals or carbon neutrality and would like to aggressively achieve and meet milestones and goals realistically through tracking, measuring, reporting, and verifying their emissions.

Includes:

- All the benefits of Essential and Advance plus
- Full access to CRIS with limited users (6 users)
- Enhanced dashboard visualization GHG emissions overview and ability to dive into the data, map of facilities and largest emitters, and top 10 facility tracker
- Comparison against Industry and comparable peers within TCR
- Dashboard aggregation for multiple subsidiaries of a single organization
- Help Desk support throughout reporting and verification process (12 hrs)
- GHG Reduction Goal to be included on public report
- Access to Members Only platform (webinar library, Knowledge base, new, and events)
- Create and participate in forum discussions
- Discounted admission to Climate Leadership Conference (25%)
